| -Intermediate | 2016-2018 | 7.0 CGPA |
|---------------|-----------|----------|

Chaitanya English medium school

| | | |
|------|-----------|----------|
| -SSC | 2015-2016 | 8.0 CGPA |
|------|-----------|----------|

Project:

1) Done a project on finding Skin Cancer using CNN (Convolutional neural networks).

They analyze the uploaded photos of skin and automatically finds what type of skin cancer it is.

2) Done a project on Front-End development.

3) Done a Figma project using the skills of UI/UX Designing skills.

Skills:

Development Skills:

- 1) HTML (Hypertext markup language)
- 2) CSS (Cascading Style Sheets)
- 3) Bootstrap v5.3
- 4) JavaScript
- 5) ReactJs

Designing Skills:

- 1) Adobe Photoshop
- 2) Adobe Illustrator
- 3) Figma

Networking Skills:

- 1) OSI (Open systems Interconnection).
 - 2) Understanding of static and dynamic routing.
 - 3) Security protocols.
-

Achievements:

- 1) Developed a Responsive Front-End Website and worked on JavaScript and React projects.
 - 2) Developed UI/UX in Figma Mob Application.
-

Languages known:

- 1) English
 - 2) Telugu
-

Extra-Circular activities:

- 1) I enjoy going solo trekking as it connects me with nature and it teaches me how to sustain in tough situations.
 - 2) I love talking with new people as it allows me to learn from different perspectives and make meaningful connections.
-

Soft Skills:

- 1) Can fit into new places.
 - 2) I'm good at mingling with new people, easily starting conversations and building connections in daily life.
-

Certifications:

UI/UX Certification -Tech Mahindra SMART Academy, Visakhapatnam

This certification determines user interface and user experience design, covering key principles of usability, user research, wireframing, prototyping, and interaction design for the designed applications.
